

Lightolier LED 3D Printed Coastal Breeze, 3DP CB series collection is made from recycled fish nets, collected from harbors on the coast of Cornwall. This special collection empowers you to make a conscious choice without compromising on beauty.

This portfolio of luminaires is powered by myCreation, Genlyte's advanced additive manufacturing technology that enables rapid production of high-quality, customizable luminaires. It streamlines design-to-delivery with on-demand colors, textures, and configurations—while reducing components and using 3D-printed parts made from at least 75% recycled or mass-balanced, bio-circular materials.
