

Parking with confidence

Gardco SoftView LED parking garage luminaires combine sleek architectural design with **ComfortEdge™** technology, delivering uniform, diffused illumination to minimize glare and create a welcoming environment.

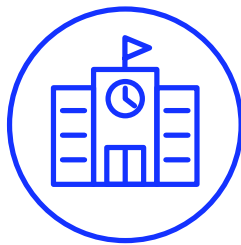

Bringing comfortable illumination to:

Retail and Hospitality

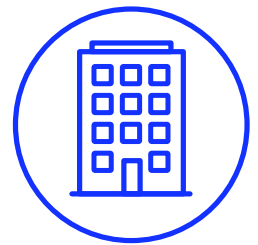

Healthcare facilities

Educational institutions

Multi-use residential developments

Office campuses

Shining with excellence

SoftView Garage and Canopy

Key Selling Points

- 1 Comfortable, low glare lighting up to 19,300lm
- 2 Exceptional uniformity allows for wider spacing between fixtures, reducing costs
- 3 Standard uplight mitigates cave and infinite ceiling effects, enhancing perceived security
- 4 Zhaga-D4i certification ensures smart, interoperable, and future-ready luminaires
- 5 Modern aesthetic complements the Gardco PureForm family
