

Lightolier 3D Printed Riverstone pendant 3DP RS Series embraces sustainability without compromising on beauty. This special edition pendant is produced with recycled 5-gallon water jugs and creates a cozy atmosphere for any setting. Drawing inspiration from the smooth pebbles and soft flow of river streams, Riverstone's design evokes a sense of peace and tranquility.

This portfolio of luminaires is powered by myCreation, Genlyte's advanced additive manufacturing technology that enables rapid production of high-quality, customizable luminaires. It streamlines design-to-delivery with on-demand colors, textures, and configurations—while reducing components and using 3D-printed parts made from at least 75% recycled or mass-balanced, bio-circular materials.
