

## Interact for installers

### Easy. Effective. Smart.

**Meet Interact** – a smart, wireless luminaire level lighting control system (LLLC).

**No extra cables. Fast commissioning. Substantial energy savings. Interact has it all.**

#### Why choose Interact?

##### Luminaire level lighting controls

Support 1:1 replacements of fluorescent to LED fixtures with integrated smart sensors.

##### Save costs with seamless retrofits

Eliminate the need for extra wiring with built-in ZigBee and Bluetooth connectivity.

##### Easy setup, operation and maintenance

Commission projects faster with an intuitive app and perform remote diagnostics for easy maintenance.

##### Digital, flexible and upgradeable

Every light is digitally addressable, providing the flexibility to create logical lighting groups and zones and perform system updates through the gateway.

##### Standalone or networked

Operate lights in a standalone mode or connect to a gateway to access more benefits.

##### Up to 80% installation savings<sup>1</sup>

Compared to installation costs of wired systems

##### Up to 5 min faster setup time<sup>2</sup>

Per controlled zone compared to similar wireless systems

##### Less than 2 year payback

Implement deep energy-saving strategies and claim utility rebates

##### 1.8x more energy savings

Compared to conventional control systems

##### Up to 2x utility rebates

Network Interact ready devices and get more utility rebates<sup>5</sup>

1. Versus legacy systems based on installer interviews.

2. Based on installer analysis done by Signify for a typical multi-zone space as compared to other wireless solutions in the market.

3. Average estimation, can vary based on rebates and product types.

4. 1 DLC report 2018

5. Utility programs across US

# Unlock additional benefits with Interact

## Automate paperwork

Download detailed installation reports and streamline record-keeping with the Interact Gateway.

## Safeguard customer data

### 7+ layers of security framework.

Signify policies and processes are aligned with global standards such as ISO/IEC 2700x—Information Security Management Systems and the ISA/IEC 62443 standards suite for product development. Signify is also IEC-62443-4-1 certified.

## Easy site maintenance

Remotely manage and monitor projects without impacting your bottom line.

## Design flexibility

Supported in a broad portfolio of LED lamps, retrofit kits and luminaires – all from one manufacturer.

## Proven at scale

Interact software powers multiple applications such as offices, schools, warehouses, cities, airports, and many more.

**80 million+**  
light points  
installed globally
