Urban

MainView LED post top
featuring LumiLock technology

MainView Family

A new tradition in lighting

Powered by GX5 LumiLock

A traditional look with modern technology

Hadco MainView post top is a traditionally styled luminaire created for comfort and ease of maintenance. This post top offers you multiple wattage options and is designed to be future-proof, giving you maximum flexibility at an affordable price.

MainView facilitates lower maintenance due to easy component replacement, a longer life, and fewer internal parts than traditional post tops. This makes MainView a clear choice for communities looking to provide **comfortable lighting you can afford**.

LumiLock LED light engine for ultimate versatility and easy future upgrades.

Service tag

MainView post top luminaire comes standard with Signify Service tag, a unique QR based identification system placed on products, poles, and boxes they are delivered in. After installing the luminaire, simply read the tag from the app to register the product. By registering the product, you are sure Signify will provide support throughout the lifetime of the product.

- Provides easy access to lighting component information at the right time and place.
- Enables more effective maintenance operations by identifying spare parts
- For more details visit: genlyte.com/servicetag

- ✓ Visual comfort globes
- ✓ Utility friendly pods for easy maintenance

- ✓ Optional field adjustable wattage selector (FAWS) provides ability to change wattage and lumen output in the field
- ✓ Future-proof: 7-pin receptacle, D4i certified DALI driver option (0-10V dimming driver standard)

LumiLock LED Light Engine

Asymmetric or symmetric? With LumiLock LED, you have both.

As the site environment changes or your needs evolve, the LumiLock LED light engine's ultimate versatility enables you to quickly convert in the field from symmetric to asymmetric distribution or vice versa to adapt as needed. Each outer light engine is individually adjustable helping you combat light trespass in the field and enabling you to customize the distribution for your specific needs.

Short optics

Versatility with short optics

The new Lumilock LED light engine in MainView post top includes the Short optic enabling you to place more light under the pole and maximize uniformity.

From simple dimming to state of the art connected lighting solutions

Further versatility can be achieved by incorporating our standalone and connected outdoor LED lighting solutions. From dimming that saves energy, to real-time alerts that enable quicker and more effective maintenance with our exclusive Interact City, Hadco LED MainView post tops with connected lighting solutions provide even greater savings and adaptability to your project requirements.

Because these post tops are renowned for their timeless historical aesthetic giving you that hometown and traditional feel in urban, suburban, campus and commercial settings, we now provide the option to order a 7 pin receptacle inside the luminaire eliminating external hardware or components that detract from the decorative aesthetic of the luminaire.

A family of styles

Hadco MainView post tops are now available in a wide array of styles to meet your discerning aesthetic needs. Match existing styles or create the new look that defines your **streetscape, downtown, historic district, business district, residential streets, park, campus, greenspace** – wherever you are updating to LED or installing new lighting. Choose from various globes, pods and finials to craft the exact luminaire you want.
